3. Between 10 March and 3 April, a large-scale exercise involving jet aircraft was observed in the Kahla-Poessneck-Reinstaedter Grund-Magdala area. In the afternoon on 10 March, artillery units including heavy guns and rocket launchers were unloaded in Goeschwitz. They subsequently moved toward Kahla-Reinstaedter Grund. At about 5:30 p.m. on 11 March, a shipment of 6 SP guns and about 40 trucks with troops carrying full pack was observed in Jena, coming from the direction of Kahla. At about 11 a.m. on 16 March, a troop train with 3 tanks and a large number of trucks was seen en route toward Jena from the direction of Kahla. The train was followed by another consisting of boxcars with troops. On the morning of 30 March, 6 T-34 tanks and about 20 trucks moved toward 25X1 Jena from the direction of Gera. In the afternoon of the same day, 8 JS-3 tanks and 12 trucks drove toward Jena-Ost from the direction of Buergel. The column later returned to Buergel from Jena-Ost. There was intensive truck traffic in Jena on 31 March.

 About 16 trucks entered Jena from the direction of Kahla at about

5. At about 2 p.m. on 31 March, a column of about 35 to 40 trucks and 10 to 15 tank trucks came from the direction of Koenigsbrueck and proceeded via Lampertswalde (N 52/A 11), Schoenborn, and Weissig on the Rahn River. Most of the trucks carried 10 to 12 men, some carried luggage. Residents stated that columns have moved in this direction [redacted]

25X1 1. [redacted] Comment. Presumably, a tank unit of the 20th Gds Mech Div which returned from Ohrdruf.

25X1 2. [redacted] Comment. So far as they have been observed about 30 March, the troop movements [redacted] were connected with an exercise of the 21st Gds Mech Div, reinforced by units of the 76th Arty Brig (US), which started in the area north and northwest of Naumburg on 28 and 29 March and extended toward Canburg-Jena. An enemy group which [redacted] was apparently represented by elements of the 57th Gds Mtz Rifle Div, was presumably employed from the area south of Jena and Weimar against the reinforced 21st Gds Mech Div. [redacted] The other movements observed after 10 March are not believed to have been linked with this exercise.

25X1 3. [redacted]

25X1 4. [redacted] Comment. These movements are believed to have been linked with an exercise of the reinforced 8th Gds Mech Div held in the Koenigsbrueck-Zeithain area in late March.
